Disclaimer: This report does not interpret lifting/carrying or sitting/standing/walking data to classify work by exertion where BLS has not provided that interpretation. If the report describes "0" jobs, then BLS has not described the occupation as existing within that exertion. Careful review of the lifting/carrying and the sitting or standing/standing walking data is required. See the "Sitting, Standing, Walking Report", "Lifting & Carrying Report", or one of the ORS Reports, selecting physical requirements filter for the relevant data.
